

Scholarship Recipient Returns

Joshua Ebanks completes Bachelor's degree

CUC is pleased to welcome back scholarship recipient Joshua Ebanks following his graduation from the University of Central Florida in Orlando. Joshua studied for a Bachelor's of Science degree in Electrical Engineering Technology.

Commenting on his time at university Joshua says, "The past three years have been challenging but very rewarding for me. I am grateful to CUC for the opportunity to study abroad and fulfil my dream of becoming an engineer technologist. I look forward to putting what I have learned into practice as I begin my career."

Josh is one of two Caymanians awarded engineering scholarships from CUC in August 2008.

In December 2007, Joshua graduated with an Associate's degree in Electrical Engineering from Broward Community College and in May 2008, began studies at the University of Central Florida.

President and CEO Richard Hew says, "CUC is committed to providing Caymanians with the training necessary to excel in their respective fields and to ensure that they are afforded the opportunity to assume positions of responsibility within the organisation. The Company recognises that an ongoing human resource development programme is essential to ensure the continued growth and success of the Company."

CUC established its scholarship programme in 1989 and since then has awarded full and partial scholarships to over 30 current and past employees in the fields of mechanical and electrical engineering, information technology, systems operations, environmental management and financial services.

Currently, three scholarship recipients have progressed to the Executive and three to the managerial level.
