

CUC Scholarship recipient Corey Miller

Scholarship Recipient Returns

Corey Miller completes Bachelor's degree

CUC is pleased to welcome back scholarship recipient Corey Miller following his graduation from Florida International University in Miami in December 2012. Corey completed a Bachelor of Science degree in Mechanical Engineering.

Commenting on his time at university Corey says, "I am very grateful to have been awarded a scholarship from CUC, which allowed me to pursue my education and to further my career. I thank CUC for choosing me out of many applicants. I gained a wealth of knowledge and experience during my time at university and I look forward to making a valuable contribution to CUC and to my community."

A 2006 graduate of Cayman Prep and High School, Corey completed his A-Levels in June 2008. Since the summer of 2006, Corey worked with the Company as a summer student and then intern in the Mechanical and Facilities Maintenance

Departments. He was granted a scholarship in 2008 and commenced studies in August of the same year.

President and CEO Richard Hew says, "CUC is committed to providing Caymanians with the training necessary to excel in their respective fields and to ensure that they are afforded the opportunity to assume positions of responsibility within the organisation. The Company recognises that an ongoing human resource development programme is essential to ensure the continued growth and success of the Company."

CUC established its scholarship programme in 1989 and since then has awarded full and partial scholarships to over 30 current and past employees in the fields of mechanical and electrical engineering, information technology, systems operations, environmental management and financial services.
