Grand Cayman, Cayman Islands- Caribbean Utilities Company, Ltd. (TSX: CUP.U)

Caribbean Utilities Company, Ltd. (“CUC” or “the Company”) today announced the issuance of a new non-exclusive Electricity Generation Licence (the “Generation Licence”) by the Electricity Regulatory Authority (“ERA”) to replace the Generation Licence granted on April 3, 2008 for operations in Grand Cayman.

The granting of the new Generation Licence follows the ERA announcement on October 3, 2014 that CUC was selected to provide 39.7 MW of additional generation capacity subsequent to an open and competitive bid process. In accordance with the Company’s 2008 generation licence, if CUC is awarded the right to supply additional generation pursuant to a generation solicitation process, the Company’s existing Generation Licence will be cancelled and a new Generation Licence issued for a period to cover the installation and expected life of the generating unit, up to a maximum term of twenty-five years. In addition, the terms and conditions of a new licence are not to be materially different from the terms and conditions of the 2008 Generation Licence. The new non-exclusive Generation Licence has been issued for a term of 25 years, expiring on November 20, 2039.
