

# Powering our Future

## CUC's 2016 Scholarship Recipients

### 'A' Level Scholarship Recipients

**Derricka Neysmith**

Derricka received a one-year scholarship towards completion of her 'A' Levels at Cayman Prep and High School. She is studying Business, Spanish, Travel and Tourism, and English Literature.

After completing her 'A' Levels she plans to attend university to study accounting. Derricka hopes to work with CUC in the future.

**Isaiah Robinson**

Isaiah received a one-year scholarship to complete his 'A' Levels at St. Ignatius Catholic High School. He is studying Information Technology, Mathematics, Biology and Physics.

Isaiah aspires to be a software engineer and sees himself working in artificial intelligence after completing university studies.

### University Scholarship Recipients

**Bianca Christian**

Bianca received a one-year scholarship to complete an Associate's degree in Engineering Technology at the University College of the Cayman Islands. Upon completion, she plans to pursue a Bachelor's degree in Engineering overseas.

Bianca began her internship with CUC in March 2016 gaining experience in the Engineering Services and Electrical Maintenance departments. She aspires to become an Electrical Engineer.

**James Ebanks**

James received a three-year scholarship to complete a Bachelor's degree in Electrical and Electronic Engineering at the University of Bristol in the United Kingdom.

James returned to CUC this year for his third summer as an intern expanding his knowledge and gaining new experience in the Electrical Maintenance Department.

**Andrew Greene**

Andrew received a two-year scholarship to complete a Bachelor's degree in Electrical Engineering at Pennsylvania State University in the United States.

Andrew returned to the Company for his third summer as an intern gaining exposure within the Instrumentation Control System group of the Electrical Maintenance Department.

He aspires to be an Electrical Engineer focussing on power engineering and control engineering with a keen interest in renewable energy.

“ CUC will continue to assist our young Caymanians in their scholastic pursuits as well as providing the necessary training to develop skills needed to be successful in the workforce. Our investments have served us well, as many have returned to make great contributions to the success of the Company. We congratulate Derricka, Isaiah, Bianca, James and Andrew on embracing this opportunity and wish them every success in their studies. ”
