

Caribbean Utilities Company, Ltd.

Environmental Policy

Caribbean Utilities Company, Ltd. (CUC) is committed to providing a safe, reliable and efficient service to its customers in an environmentally responsible manner. In fulfilling this commitment, CUC will incorporate environmental issues into decision-making processes.

CUC is committed to:

- a] *continual improvement in environmental performance.*
- b] *exploring and encouraging the adoption of viable renewable energy generation technology.*
- c] *the prevention of pollution including air, soil, groundwater, coastal water and noise.*
- d] *complying with or exceeding the requirements of all applicable legal and other requirements relating to our Environmental Aspects.*
- e] *managing our activities in a way that is consistent with industry practice and the environmental policies of the Cayman Islands Government.*
- f] *maintaining an ISO 14001 certified Environmental Management System through monitoring and auditing its operations and setting and reviewing environmental objectives.*
- g] *the conservation of natural resources.*
- h] *processes to document, implement, maintain and communicate this policy to the public and all persons working for or on behalf of CUC.*
- i] *ensuring that all persons working for or on behalf of the Company are trained to carry out their duties in a manner consistent with CUC's environmental procedures and practices.*

Note: Indicates revisions to the previous EMS Policy

J.F. Richard Hew, *President & Chief Executive Officer*

Revised: February 2012
