

Caribbean Utilities Company, Ltd.

Significant Environmental Aspects (SEAs)

These six Significant Environmental Aspects encompass operating activities that have or can have significant impact on the environment within the scope of the Environmental Management System (EMS). It is expected that all employees familiarise themselves with these aspects and the procedures as stated in the EMS Manual (Volume 1).

- 1] *Air Emissions*
- 2] *Waste Management*
- 3] *Petroleum Management*
- 4] *Process Water Management*
- 5] *Hazardous Materials and Chemical Management*
- 6] *Noise Emissions*

Employee participation in the monitoring and management of our SEAs is core to the success of the Company's Environmental Management System (EMS).
